1. The amendment filed on 10/15/02 has been entered.

Information Disclosure Statement

2. The Information disclosure Statements filed on 10/15/02 has been considered.

Claims Rejection Under 35 USC - 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 2 and 5-9 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by **Rickards** (5,717,479).

Rickards discloses industrial safety assembly including disposable ear protection and earphone which comprises a telecommunications receiver carried inside of the eyeglass, telecommunications transmitter carried inside of the eyeglass, a rechargeable battery carried by the eyeglass, a pair of earphones and a microphone is connected to an orbital.

Claims Rejection Under 35 USC - 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Claims 3 and 4 are rejected under 35 U.S.C. 103(a) as being unpatentable over **Rickards** (5,717,479).

Rickards discloses industrial safety assembly including disposable ear protection and earphone which comprises a telecommunications receiver carried inside of the eyeglass, telecommunications transmitter carried inside of the eyeglass, a rechargeable battery carried by the eyeglass, a pair of earphones and a microphone is connected to an orbital.

Rickards does not disclose the storage device comprises an MP3 storage device.

However, the storage device comprises an MP3 storage device are well known in the art of the memory device for the purpose

storage the music. Therefore, it would have been obvious to one skilled in the art to make the telecommunication spectacle, of Rickards, include MP3 storage device for the purpose storage the music.

5. Applicant's arguments with respect to claims 2-9 have been considered but are moot in view of the new ground(s) of rejection.

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, THIS ACTION IS MADE FINAL. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing
